## TRENDS TO GROW REVENUE

CENTRAL  
Turf + Turf

### ► ARTIFICIAL TURF

- » Use where difficult to grow natural grass, patios, putting greens, bocce ball courts, pet areas, pool-surrounds, and more.
- » High-quality, long-lasting products as well as the accessories needed to create seamless transitions between artificial turf, hardscaping, and natural grass.

### ► OUTDOOR AUDIO SYSTEMS

- » Add dimension, sound, and increase the value of outdoor spaces by adding systems to residential & commercial jobsites
- » Speakers, Amps
- » Smart Controlled with Wifi, Bluetoth, and cloud based apps
- » Coverage up to 1500sq ft

WAC  
LANDSCAPE LIGHTING

### ► NICHE LIGHTING

- » Under Stair/Deck Lighting
- » Under Cap Lighting
- » Paver & Stone Wall Lighting
- » Mini Fixtures/Hard to Reach Spaces
- » Colorscaping

**GeoRipper®**

### ► GEORIPPER

- » GeoRipper® is an ideal digging solution for irrigation, root barriers, landscape lighting, other pipe and wire installations.
- » Increase productivity over hand-digging by digging faster and more precise trenches.

**Hunter®**

### ► HUNTER 360 SOFTWARE

- » Comprehensive, map-based irrigation control platform for Hunter ACC2 and ICC2 Controllers along with dedicated weather stations.
- » Conventional, two-wire, & wireless valve connections
- » Maximum Controllers Unlimited
- » Automation of flow management, alarm handling, and adaptive watering schedules, contribute to increased operational efficiency

**GUARDIAN®**  
BY ELEXA

### ► REMOTE SHUT OFF VALVE

- » Install on every jobsite for minimal cost and nobody needs to be home to get the job done! Excellent for irrigation winterization, spring start ups, or system troubleshooting.
- » The Guardian System Remote Shut Off Valve installs with no tools and no pipe cutting—simply install & connect.
